

Last week Interteddy told Class1 and Class 2 four important things about using the internet at home:

1. Always ask an adult before you go online. Maybe you will need help. Stay on the site you said you were going on.

2. When you meet someone new through the internet – eg in Moshi Monsters – You don't know who you might be talking to ...

Keep your personal information, even your name, secret. Sometimes websites ask for personal information. Always check with an adult if it's OK.

3. Look after the computer. Keep drinks away. Use it carefully.

And don't click on things that say Free!

4. If you see something that upsets or scares you, tell an adult. Don't show it to other children.
